Dear Parents/Caregivers,

I write to inform you that a student in our school is currently receiving treatment which results in a lowered immune system, which means, the student is more prone to getting ill from infections.

As the student is not contagious but has a chronic illness, it is important he/she participates actively in the day to day school program without any major limitations.

A major concern is that if this student develops measles, chickenpox, whooping cough or influenza, he/she could become seriously ill. I seek your cooperation in preventing this situation.

If your child has or may have measles, chicken pox or other infectious illness, I would ask that you please:

- 1 Do not send them to school.
- 2 Notify myself, the School Principal, as soon as possible.
- 3 Take them to your GP or medical centre to confirm diagnosis if possible.

Thanking you in anticipation.

Lisa-Maree Browning
Principal
